

# SYNAPTEIN SOLUTIONS, INC.

## Capability Statement – IT Support, Data Modernization & Application Services

### Company Overview

**Synaptein** Solutions, Inc. is a U.S.-based small business providing mission-critical IT services, application development, data modernization, and operational support to federal, state, and local government clients. We specialize in supporting regulated, data-intensive environments where continuity of operations, security, and user experience are equally critical.

### Core Capabilities

#### Application Development & Sustainment

- Full lifecycle software engineering, design, development, testing, deployment, and O&M
- Expertise supporting custom mission applications with high availability requirements.
- Agile delivery, backlog management, CI/CD, and version control
- Web application development using modern JavaScript frameworks, REST services, and enterprise back-end systems

#### Data Architecture & Modernization

- Enterprise data architecture, schema design, and PL/SQL development
- Legacy system analysis, data migration, and modernization to cloud-hosted environments (AWS/Oracle)
- Data quality, performance tuning, auditability, and regulatory compliance
- Experience handling federally regulated and sensitive datasets

#### IT Operations & Help Desk Support

- Tier 2 / Tier 3 end-user and application support for internal staff and external stakeholders
- Hardware, software, mobile, and VPN support in distributed environments
- Asset management, inventory tracking, field site support, and documentation
- Customer-facing support for non-technical external users

# SECURITY & COMPLIANCE

- Proven execution in DOC, NOAA, and federal IT security frameworks
- CAC/GFE environments, low-risk contract compliance, privacy and data handling
- Physical security, asset safeguarding, and audit readiness

## DIFFERENTIATORS

**Operate & Modernize in Parallel:** We keep mission systems running while modernizing data and applications

**Regulated Data Expertise:** Deep experience supporting compliance-heavy environments

**User-Centric Operations:** Strong focus on usability, reliability, and customer experience

**Rapid Workforce Readiness:** Ability to staff cleared, qualified personnel quickly

**Low Risk Delivery Model:** Predictable execution aligned with COR/CO expectations

## RELEVANT EXPERIENCE

- ✓ Federal IT modernization and application support
- ✓ Cloud and data platform implementations
- ✓ Enterprise help desk and operational support
- ✓ Automation and efficiency initiatives in regulated agencies

(Detailed past performance available available upon request)
